Eclipse Corporation and BCC Software Announce Partnership

*Both software providers emphasize
the value of a streamlined workflow*

ROCHESTER, NY – Today, [Eclipse Corporation](#) and BCC Software announce a business partnership, providing additional value to customers of both products.

Eclipse Corporation is a leading provider of enterprise document design, presentation, generation, automation and customer communication management software. When integrated together, BCC Software and Eclipse Corporation’s products create a seamless document creation-to-mail process.

“This important partnership shows yet another way to streamline the direct communication workflow by integrating technology assets,” said Chris Lien, President of BCC Software. “BCC Software and Eclipse represent over 50 years of combined experience in the print and mail industry. That depth of knowledge provides our customers an unmatched know-how when it comes to managing enterprise name and address data used for producing and mailing documents.”

Eclipse Corporation’s software was built from the ground up by the core team that developed Adobe Central, JetForm, FormsPlus/400, PDF Wizard and R-Forms.

“Eclipse provides enterprise class document, form and label software for education, finance, government, healthcare, logistics, manufacturing, and telcos. Our clients need to generate electronic and paper documents. When it comes to mailing, combining our technology with BCC Software makes sense for all of our customers.” said Steve Luke, CEO of Eclipse Corporation. “The combined solution provides our clients the maximum savings on postage and allows them to print in-house or send print ready files to any print service provider.”
