DocOrigin

### Document Design and Generation

DocOrigin is an innovative and intuitive software solution for designing and generating dynamic business documents. Whether you need to produce large volumes of invoices or statements, or a single customer letter, DocOrigin handles your business-critical requirements quickly, easily, and affordably. What's more, DocOrigin allows companies to leverage the data generated by older legacy systems, modern enterprise and customer management systems, and other line-of-business applications to create and generate affordable high-value documents. With DocOrigin, you save money, build value and increase your return on investment.

### Migrate to DocOrigin

Do you need to replace end-of-life document generation systems? DocOrigin was developed by the people who originally created the JetForm/Adobe Central products. As a result, migrating to DocOrigin is a breeze.. DocWizard provides extensive features for Rapid Forms Migration to auto convert forms from Adobe, BI Publisher, Create!Form, DocPath, FormScape, Optio and other legacy form solutions.

### High Value Customer Communications

You can make more money and improve your relationship with your customers by using routine transactional documents to cross-sell and boost brand loyalty. Use DocOrigin to transform your routine customer correspondence into vital marketing and communication tools that are targeted, personalized and engaging.

### High Performance Output

When it comes to printing, DocOrigin is fast, flexible, and functional. Custom drivers produce PCL, Postscript, PDF and HTML at optimal speed and efficiency. Drive high-speed ink jet printers and cut sheet lasers with a single solution. Mission-critical output where you want it and when you want it.

### Automated Batch Conversion

Our automated batch conversion tools streamline the conversion of legacy forms and documents – minimizing downtime and conversion risks – while our expert consultants ensure that everything transitions smoothly
